Design Inspiration

My design features the homepage of a fictitious animal shelter; I chose this subject matter because at one point in life, I wanted to start a not-for-profit animal sanctuary. Although that may never happen, I would still like to create websites for similar kinds of businesses. (e.g. small, local, non-profit, etc.)

Component Locations

- Animated Bar Chart - *about* section
- Interactive Image Gallery - *adopt* section
- HTML5 Video - header
- HTML5 Canvas - *services* section
